

Imports of composite products from third countries

Published: 03.09.2021.

The combined product is a food containing both products of plant origin and processed products of animal origin.

For composite products (composite products) which do not require controlled temperature conditions during transport and storage, they must be stored for a long time and contain processed products of animal origin (milk, eggs, etc.), except processed meat - the consignment must be accompanied by a private declaration from the importer, which shall be completed and signed by an importer involved in the food chain. The model for the private attestation is set out in Annex V to Regulation (EU) No 2020/2235. The forms are available in Latvian and English [HERE](#).
