The Food and Veterinary Service control the food circulation and animal health and welfare.

Food must be safe.

We control all companies that produce, store or distribute food.

Food supplements must be registered.

We register food supplements.

We control food and animals imported from other countries at the border.

Food products - meat, milk, eggs - are obtained from farm animals - cows, pigs, chickens. These products must be safe. Farm animals must live under good conditions, be fed and treated properly.

We are checking the places where farm animals are kept.

Animals are treated with veterinary medicinal products. The veterinary medicinal products must be authorised.

We register veterinary medicines and check how they are used to treat animals.

The Food and Veterinary Service has 11 administrations.

Our central office is in Riga, Peldu Street 30.
